San Francisco Sept 15 1904

Mr. Leo Justi  
Dear Sir:

I spoke to my father about that corrugated iron some little time ago and he said he went to a few places where he thought you could get some but he didn't see any, he said it would be rather hard to get.

He told me to go to Fodera & Co. and I went but they did not have any but he thought I could get it at 14<sup>th</sup> and Valencia but they did not have any either so I don't know any other places.

I arrived in the city pretty sick from eating too many green grapes but everybody are all right now hoping everybody is well I am

Your very truly  
Geo. Hansen.
